VIRGINIA IS FOR OUTDOOR LOVERS

SHARE THE LOVE

Virginia is for Lovers… of Life. The scenic beauty and wealth of outdoor travel products – from surfing to petting a wild pony on a mountain top – means visitors can truly create a historic life experience doing whatever they like to do outside.

So what does a historic life experience in the outdoors look like? It’s an experience that moves our travelers to instinctively “want to go there and do that.” Often, these experiences blend other fun travel products with the outdoors. For example: a wine and kayak tour, a craft beer after a long hike or a great meal after a fun bike ride with the family. Here are a few visual examples:

• Growing in the world-famous Chesapeake Bay, the Atlantic Ocean and its tributaries, Virginia oysters thrive in eight different regions producing oysters with distinct flavors, offering an oyster for every palate.

• The flavor of “The Virginia Oyster” from each region is unique, unlike any others in the world (a concept called “merroir,” similar to the wine concept “terroir”). These exceptional tastes range in salinity, creaminess, and sweetness.

• All oysters are eco-friendly and actively filter the water they are grown in. The oyster industry is one of the few industries that as it expands, provides tangible, increased environmental benefits.

• The Virginia Oyster industry is one of the longest-standing industries in the state, going back to the time of the Jamestown settlers.

• The Virginia Oyster pairs perfectly with another recognized Virginia product: Wine! Some of our oyster regions share watersheds with Virginia wineries, proving the point that “what grows together, goes together.”

LOVE is popping up all over Virginia, and now is your chance to be a part of it!

The LOVEworks program is a state-wide branding initiative designed to promote historic life experiences in Virginia and strengthen awareness of the “Virginia is for Lovers” message. It’s easy to see why this message has been the state slogan for nearly 50 years; from the coast to the mountains and every small town or bustling city in between, you are bound to find something to fall in love with in Virginia.

In an effort to extend the brand message – and after seeing the popularity of the LOVE signs created at Welcome Centers around the Commonwealth – Virginia Tourism established the LOVEwork Reimbursement program in 2013. The program was a success, with 16 LOVEworks created in the first year and travelers of all ages interacting with the structures every day. A second LOVEwork Reimbursement fund was opened in 2014 and has remained open since, and more than 100 LOVEworks have been built around the Commonwealth to date.

The LOVEworks have become special places, not only for local communities, but also for travelers. People are drawn to the LOVE letters and often choose them as backdrops for special occasions such as engagements, family photos, memorable road trips and more!

The LOVEworks program is a great way for local communities to leverage the brand strength of Virginia is for Lovers to promote their own messages and unique destinations. For example, Waynesboro created a river-themed LOVEwork in a local park to strengthen their city’s brand as an ideal hub for outdoor recreation. Similarly, Harrisonburg created their own LOVEwork to provide an interactive representation of their community strengths: diverse ethnic backgrounds; rich agriculture; outdoor recreation and cycling; and a vibrant arts scene. REIMBURSEMENT REQUIREMENTS & GUIDELINES

• This is a one-time reimbursement fund, available on a first-come, first-serve basis.

• This opportunity is geared toward family-friendly tourism destinations and is open to local tourism offices, convention and visitors bureaus, attractions, DMOs and localities.

• Past LOVE creation reimbursement fund recipients/destinations/localities are not eligible to apply.

• The LOVEwork must be permanent in highly-visible, well-trafficked areas (indoor or outdoor) that experience high visitation and can be easily and safely photographed and shared on social media.

• The proposed LOVEwork needs to be large – big enough for an adult to stand beside it for a photo.

• Projects should promote or incorporate local/regional themes, materials or items that are unique selling points for the destination (i.e. seashells for beaches, murals for historic downtowns, canoe paddles for outdoor adventure, etc.)

• The project applicant assumes all responsibility for maintenance and upkeep of the LOVEwork and agrees to secure any necessary permits or permissions for constructions/creations.

• Applicants cannot charge a separate fee to access the LOVEwork, but it is acceptable to host the LOVE creation/artwork at a tourism destination that requires a fee (i.e. Mount Vernon, Monticello, Busch Gardens, etc.)

• Once the LOVEwork is built, it should remain in place for at least a year after its placement. Should it become necessary for the LOVEwork to be removed from its location site, the Applicant should notify VTC of its removal.
