2020 Monthly and Year-to-Date June Lodging Report

The Research Team at VTC has contracted with Smith Travel Research (STR), a leading lodging industry research company, to provide monthly and annual lodging data for the Commonwealth of Virginia. The following report provides an analysis for the state and various pre-defined regions year-to-date (YTD) data. [Note: STR's pre-defined regions do not correspond to political boundaries in all cases; however, they do provide a level of detail that allows for near complete coverage of the state. You may view a map and explanation of STR's pre-defined regions here: http://www.vatc.org/research/lodgingreports/

There are five major areas of analysis contained in this report:

- 1) Room Demand Reflects the percent change in the number of rooms sold
- 2) Room Supply Reflects the percent change in the number of rooms available
- 3) Room Rate (ADR) Reflects the average rate paid for rooms sold
- 4) Room Revenue-Reflects the percent change in the amount of revenue collected
- 5) Occupancy Percent Reflects the percentage of rooms occupied

The following table details the above five areas of analysis for the US, Virginia, tourism regions, and various segments around the state defined by STR. Sub-segments are also included within several of the larger segments. For example, the larger Washington DC Segment is broken down into Arlington, Alexandria, Fairfax, Suburban VA, I-95 Fredericksburg, and Dulles Airport sub-segments.
